## Imaging Software

FlipAlbum 6 Suite ([www.flipalbum.com](http://www.flipalbum.com)) lets you create personalized digital photo albums or scrapbooks on your computer that feature a virtual 3D page-flipping design that you can add music, text, and video for holiday celebrations, birthday parties, weddings, and graduations. When you're finished, you can burn the scrapbook onto a CD or DVD and users can slip the CD into a PC, Mac OS, Windows computer, or DVD player to instantly view your albums. FlipAlbum 6 Pro lets you create and sell digital photo portfolios on your computer for events like weddings and parties. The software allows you to protect your copyrighted materials by adding image encryptions, print locks, watermarks, and passwords.
